1990 BUDGET BOOKLET

Mr Harding has given me a copy of the 1990 Budget Booklet prepared by you for Fisons Pakistan.

I am writing to you now to say that I think the booklet is an excellent effort, especially for one so new to Fisons. It reflects the sort of professional approach to financial control and management so essential to Fisons Pakistan, and indeed to any operation within our region. In particular, I am impressed with the listing of budget assumptions, which should provide a focus for the management of the operation, and analysis of variations from the budget plan, during the budget year.

I look forward to meeting you in the near future, either in Pakistan or the UK.

Regards.
